Alerting Rings

Single Ring A call from an on-campus extension.

Double Ring A call from off-campus or operator.

Triple Ring Automatic Callback calls.

Call Progress Tones

Call Waiting—A single tone while you are on the
line indicates that you have another incoming call.

Confirmation—Three short tones confirms that the
command you entered has been performed.

Intercept—Alternating high and low tones indicates
a dialing error or denial of the command you entered.

Recall —Three short tones followed by dial tone
indicates that the command you entered has been
performed.

Student Billing

Residence Hall and USAC residents are billed by the Accounts Receivable Office for long distance calls. (One resident in each USAC apartment is billed for basic service.) Telecommunications call detail statements are mailed each month.

Charges must be paid monthly to avoid losing service and incurring a reconnection charge (non-refundable) of \$10.

You are responsible for all calls placed using your authorization code. Do not give this information to anyone!

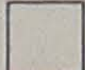

ISU uses Direct Dial and International Direct Dial rates, updated quarterly. Direct Dial calls and International Direct Dial calls are discounted.

NOTE: FRAUDULENT BILLING CAN LEAD TO PROSECUTION

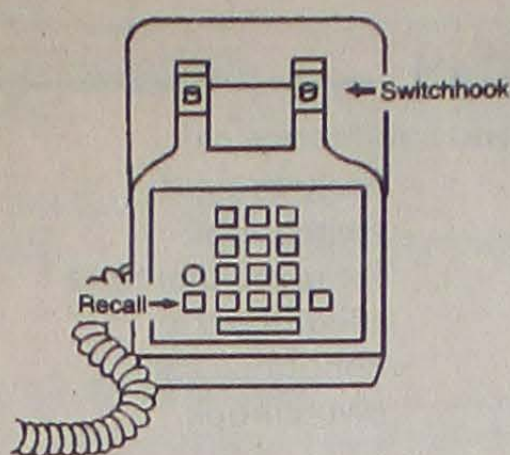

It is illegal for a person to charge long distance calls to another person's calling card or authorization code without their permission. Persons placing such calls to avoid payment for service are subject to prosecution and if convicted are subject to imprisonment and/or fine.

Data Network Information

The Iowa State University Data Network provides connectivity between computers, terminals, and local area networks throughout campus. This gives users the ability to access any machine on the data network with the appropriate software.

Connecting to Campus Inbound Modems

The inbound modems are connected to a terminal server that provides direct access to the Ethernet network. The modems support speeds from 300 bps to 14.4 kbps and MNP5 and LAPM data compression. To access these modems, dial:

268-enet
(268-3638)

After your modem's "connected" message appears a menu will be presented.

Connecting to Campus Outbound Modems

Using the outbound modem pools, callers may connect to off-campus systems reachable by modem. Both modem pools are Hayes-compatible and support 300-, 1200-, 2400-, and 9600-bps connections, with speed setting controlled automatically. The pool on the terminal server also supports 14.4 kbps connection. Additional features such as auto-reliable mode and data compression are activated automatically if the answering modem supports them.

To use the outbound modems:

From ISN:

At the "DIAL" prompt:

TYPE modem
PRESS <RETURN>

When the campus network replies with "ANSWERED", the terminal is connected to an outbound modem.

TYPE ATZ
PRESS <RETURN> to reset the modem to its default settings. When "OK" appears on the screen, you are ready to call out from the network.

From Ethernet:

Telnet to modem.iastate.edu. When the connection has been established, you are connected to an outbound modem.

TYPE ATZ
PRESS <RETURN> to reset the modem to its default settings. When "OK" appears on the screen, you are ready to call out from the network.

To place on-campus calls:

TYPE ATDT 4XXXX
PRESS <RETURN>

To place off-campus local calls:

TYPE ATDT+ 8 + seven digit number
PRESS <RETURN>

Note

When placing long distance calls, you must use an authorization code; you will be charged regular long distance toll rates. To obtain an authorization code, call the Telecommunications Office at 294-8585.

To place long distance calls:

TYPE ATDT
8 + 1 + area code
seven digit number
W
authorization code
PRESS <RETURN>

The "W" tells the modem to wait for the dial tone before dialing your authorization code.

When the modem connects to the remote system, "CONNECT" (speed) (mode) is displayed, where (speed) indicates the baud rate, and (mode) indicates special features such as RELIABLE or COMPRESSED.

Press <RETURN> a few times to get a login prompt; then log in as usual. When you finish, follow appropriate logout procedures; then hang up from the modem by entering the disconnect sequence (<BREAK><BREAK>).

Point-to-Point (PPP) 268-4PPP

Enhanced remote networking is available through PPP service. This gives users the ability to run applications such as Telnet, FTP and Netscape directly from their home computers. Use of PPP service is billed to a personal account through the Accounts Receivable Office. You must have a Project Vincent account. Instructions for obtaining a Project Vincent account are available in 138 or 197 Durham Center. Log in to Project Vincent:

TYPE request
SELECT PPP access

Answer the questions at each prompt.

Connecting to the PPP server:

The supported software packages from the Computation Center are preconfigured to automatically set up the connection. With other software packages dial 268-4PPP (268-4777). This is an off-campus call, please dial an 8 when calling from on campus.

ISN/Ethernet Gateway

The terminal servers provide a gateway between the ISN and FDDI/Ethernet network.

To access the Ethernet network from ISN:

At the ISN "DIAL" prompt:

TYPE	"ETHERNET" or 'ENET'
PRESS	<ENTER>
VIEW	"RINGING" and "ANSWERED"
PRESS	<ENTER>
VIEW	MENU OPTIONS

For more information, refer to the **Computation Center User's Reference Memo 39 (Logging in to ISU Computers)** available in 195 Durham Center.

Temporary Data Protection

When using your telephone with a modem for data calls activate Temporary Data Protection to prevent any interruption for the duration of your data call.

To activate:

LISTEN	for dial tone
PRESS	113

NOTE Lightning may damage equipment connected to a power source or a communications jack. The Telecommunications Office is not liable for damage caused by electrical storms. Surge protectors will not guarantee protection. We recommend that you disconnect both the power cord and communications cable during electrical storms.

Whatever it is you're hunting for

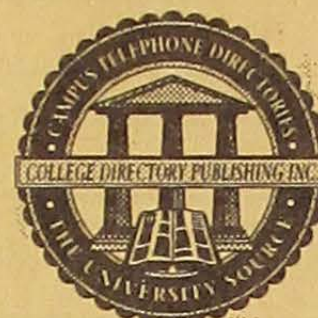

...you'll find it in the Campus Directory

What is black & yellow and read all over?

The Directory Yellow Pages, of course!

**Today, you can't get a "real" job
without "real" experience...
So, how do you get real experience
without a real job?**

Job skill... Practical knowledge... A proven track record... You know the cliches. Today, no matter how you phrase it, experience is the bottom line. Today, you need practical experience in the workplace. Today, you need to demonstrate more than just the ability to test well, because, soon, you will need to actually perform. So, today, plan to get out from underneath the books and get into a position with the Campus Telephone Directory.

Time and money:

a powerful combination to help
stop urgent problems in our
community from growing.

Thanks for your generosity.
